

Editor, Math Curriculum - NYC

### **Company Description**

Education2020 helps school districts provide core and elective instruction in a virtual school setting for students in grades 6–12. Our courseware is aligned to state and national standards and has helped students recover and accrue credits for graduation and prepare for state, end-of-course, and key standardized tests since 1998.

With our web-based model, teacher-led video delivery, and proven instructional approach, e2020 offers some of the most engaging and individualized instruction of any virtual school solution available today. It combines best-practice pedagogy with next-generation technology that enables your school to customize content and settings while providing an opportunity for students to learn at their own pace and make meaningful academic gains.

### **Job Description**

Education2020 is looking for an Editor for our 6–12 grade math curricula. This person will be responsible for developing course content for products in Education 2020's math catalog. This position will report to the Managing Editor of Curriculum Development.

### **Requirements**

5+ years of experience designing and developing interactive curriculum

Deep understanding of core math content, from 6<sup>th</sup> grade through high school

Knowledge of state standards and the Common Core Standards

Superior written/oral communication skills; an ability to present views in a clear and compelling manner

Excellent interpersonal skills; able to mix easily and well with peers, subordinates, and senior management

Project planning skills

Experience working with external vendors for content development

---

## **Responsibilities**

Writing content and correlations

Writing content in accordance with instructional objectives

Working collaboratively with the production team to develop interactive instructional components that work across multiple content areas

Correcting errors and responding to quality assurance issues

Supporting the creation of instructional prototypes and course materials

Effectively producing high quality work on time and budget
